2. Recertification of Para transit eligible passengers

The Americans with Disabilities Act (ADA) requires the City to provide paratransit van service to persons who, as a result of a physical or cognitive disability, are unable to independently access or use fixed route transit. In order to facilitate implementation of the ADA, the Federal Government in 1992 provided transit properties with a very simple eligibility determination process. Present trends for WT show a need for recertification. **Wichita Transit** staff will explain and review the recertification plan and answer questions of members and public.

*******Recommended Action:** Receive and approve the recertification plan as presented

3. Conversion of 15th Street Right of Way to Utility Easement

The sanitary sewer that crosses the Little Arkansas River at 15th Street North needs to be replaced. This sewer was constructed in 1927. Replacement will help insure that it does not contribute to pollution by leaking sewage into the River. Replacement will necessitate replacement and relocation of a sewer lift station located on the east bank of the River. Water Department staff will be present to discuss the process and answer questions.

*******Recommended Action:** Receive public comment and approve the conversion of the street right of way to utility easement.
